Thanks John,

I made that case to Rita last week. She forwarded my email to Allison Gardner of ORC. Allison is in charge of email searches. She has not answered yet, but it will be her decision whether we can use your search to close the request or if we need a more formal search.

I will let you know when they get back to me. Because the requestor asks for a specific date, I feel we have a good case. But don't count your chickens, as they say.

Ed

Hi Ed,

I searched my email files for the timeframe from June 24, 2016 to the present for any emails that mentions or refers to "AWP Standards" regarding treating wood with copper as noted in this FOIA Request Description.

As we discussed, this search confirms that I did not locate any emails that I sent or received with this subject.

Over that timeframe, the only emails I received that were slightly related to this subject were three emails sent by Kyla Townsend-McIntyre, in which I was copied, in response to an inquiry on the approved uses of chromated copper arsenate (CCA) treated lumber. However, the AWP Standards were not mentioned or referenced in these emails.

Please let me know if you need any additional information from me or if there are additional steps I am required to complete. The due date for this FOIA response is July 14, 2017.

Thanks!
John

Hi Fatima & John,

You would know more about this than me, but I can tell you that email searches must be handled using the Relativity Program which is administered by ORC. What I will likely need from you are search terms.

That is assuming that there are emails like the ones described here to search for. Also, there is a 25 dollar fee limit to this request. Consider the time involved and if that will be enough to cover it. 25 dollars is about 1 hour of time.

Let me know what I can do to help with this request.

Thanks,

Ed
